

**CHERRIES**  
RESPONSIBLE HEALTHCARE ECOSYSTEMS

Dear reader,

welcome to the 8th issue of CHERRIES newsletter. Time to share with you the main achievements of the last few months, and inform you about the ongoing and upcoming project activities and opportunities.

The end of 2021 marked some key milestones for our consortium:

- CHERRIES regional pilots in Cyprus, Örebro and Murcia advanced the testing and co-creation of their solutions with the territorial stakeholders and partners;
- CHERRIES Örebro launched a [second call for solution providers](#);
- [Four regions joined the CHERRIES community](#);
- The second edition of CHERRIES webinar series provided incredible insights from the regional experiments;
- Last but not least, partners finally had the chance to meet in person again in Cyprus!

The beginning of 2022 is also rich of initiatives and opportunities for our community!

- We started the year officially welcoming on board of the CHERRIES community our four Mirror Regions: Coimbra (Portugal), Burgos (Spain), West of Ireland (Ireland), and Nord East in Romania.
- We are finalising the selection process of the second call for solutions of CHERRIES Örebro and we will announce soon the new solution provider.
- We started harvesting the preliminary results of the ongoing regional pilots, encouraging cross-regional interactions and exchanges.

The event aims at presenting and sharing CHERRIES methodology and practices with the wider European community: you are all invited to join us. Save the date on the agenda, more info will follow soon!

Do not forget to visit our [Website](#) for the latest updates and connect with us through [LinkedIn](#) and [Twitter](#).

Wishing you a great day!  
The CHERRIES Team

CHERRIES partners are glad to invite you to the **CHERRIES Conference** which will take place in Brussels on May 25th.

We look forward to sharing key project outcomes and results through engaging sessions, where best practices and concrete cases will be at the core of the debate.

Join the CHERRIES community: engage with consortium partners, regional stakeholders from both the pilot and the Mirror Regions, Brussels-based innovation networks and regional representatives.

We count on your presence!

**Latest Updates from CHERRIES pilots**

selected to co-design and co-create innovative solutions responding to identified needs in the regional healthcare sectors of Cyprus, Murcia and Örebro.

Since then, local multi-stakeholders' co-creation teams have been set up in each territory to carry out the CHERRIES transversal approach by involving the interested parties in the development of the solutions.

What is currently going on in CHERRIES regions? Time to get an update from the three territorial pilots!

## CHERRIES Mirror Regions at the starting blocks

On January 20th, CHERRIES officially launched the programme dedicated to the so-called Mirror Regions: four European regions that will replicate CHERRIES model in their own territories.

The regions of Burgos (ES), Coimbra (PT), Nord East (RO) and West of Ireland

partners.

Now that CHERRIES Mirror Regions have been selected, we call other European regions interested in the project methodology and willing to replicate the CHERRIES model within their territories to join our community.

This community will exchange know-how, promising practices, and resources, and will become the natural place to receive personalised explanations and periodic follow up on the CHERRIES learnings and its updates.

## CHERRIES TIPS

### Discover CHERRIES Healthcare Systems with the recordings from our webinar series 2021

Back in October 2021 in the framework of the European Week of the Regions, CHERRIES organised the second webinar series: "Shaping responsible healthcare ecosystems in Europe".

Designed as a peer learning opportunity, the series aimed at showcasing the policy experiments in the healthcare sector held in the three CHERRIES regions: Murcia (ES), Örebro (SE) and the Republic of Cyprus (CY).

Over three sessions, the regional stakeholders presented their regional ecosystems, and the way CHERRIES methodology is implemented in each specific context.

[If you missed the CHERRIES webinar series 2021, you can still watch the recordings here](#)
